

### **Front cover information**

Badut Temple is known as one of the oldest temples in East Java, closely linked to the Dinoyo Inscription, a legacy of the Kanjuruhan Kingdom from the 8th century. The temple is located in Karang Besuki Hamlet, Karangwidoro Village, Dau District, Malang Regency. It is located in the Tidar area and not far from residential areas. The temple's construction is believed to be related to the Dinoyo Inscription, dated 682 Saka, or around 760 AD. The inscription tells of King Gajayana of the Kanjuruhan Kingdom who built a shrine to the sage Agastya.

# **Guideline for Author**

---

JEECS (Journal of Electrical Engineering and Computer Sciences) is a scientific journal that presents and updated scientific articles in the field of Electrical Engineering and Computer Sciences research among academics and practitioners alike, including power system, electrical engineering, industry automation, computer sciences, informatics, and information system.

Manuscripts submitted to JEECS should accomplish the following checklist:

- The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- The submission file is in Microsoft Word document file format.
- Where available, URLs for the references have been provided.
- The text is single-spaced; uses a 10-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.

## **Journal Publication Policy**

Publication of articles in JEECS is dependent solely on scientific validity and coherence as judged by our editors and/or peer reviewers, who will also assess whether the writing is comprehensible and whether the work represents a useful contribution to the field. JEECS acknowledged the effort and suggestions made by its reviewers.
